DETAILED ACTION

Priority

Examiner acknowledges there was an error in the office action summary mailed on April 28, 2005. The office action summary indicated that all certified copies of priority documents had been received. However, there is no copy of the PCT/CH02/00446 to which applicant claims priority. Therefore, the indication that all certified copies of priority documents had been received was an error. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Switzerland on Oct. 15, 2001. A copy of this foreign reference is in the file history. However, that applicant has not filed a certified copy of the PCT/CH02/00446 application as required by 35 U.S.C. 119(b). Therefore, priority cannot be granted.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 2 – delete “sheet-like” replace with “sheet”

Claim 15, line 2 – delete “sheet-like” replace with “sheet”

Claim 21, line 2 – delete “sheet-like” replace with “sheet”

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Examiner has amended claims 1, 15 and 21 in order to avoid a §112 rejection. The phrase "sheet-like" would render the claims indefinite because the claims would include elements not actually disclosed (those encompassed by "-like" terminology), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Further, in light of the Applicant's amendments and arguments, the claims are deemed allowable since they define over the prior art of record. Specifically the independent claims require, inter alia, convey an imbricated stream of products, forming an intermediate stack, conveying the intermediate stack such that a gap is formed, displacing the products from the stack into an imbricated stream wherein the order sheets is reversed with respect to the order of the sheets in the original imbricated stream. This combination of features is not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims 1-6, 8-11, 14-18, 20-30 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
